

General Physics I–Honors: PHYS 101H (Fall 2022)
Quick quiz 0

Chris Monahan
William & Mary

Instructions

These quick quizzes are low-stakes assessment tools to help cement your understanding of our material. They will help you remember the key facts and can serve as a study guide to help you focus on material you are less familiar with. These quizzes do not contribute to your grade and are for your own use.

1. **Without looking at your notes or the textbook, and without consulting with your neighbour**, write your answer to each question in the **first column**.
2. Discuss with your neighbour and use your notes or the textbook as needed to answer each question and write your answers to each question in the **second column**. You should complete the second column, but do not add anything to your first column.

There are four questions.

Question 1

When is the first midterm currently scheduled? How many midterms are there?

|

Question 2

What fraction of the grade is based on midterms?

|

Question 3

Describe one example of an acceptable type of collaboration in this course and one example of an unacceptable method of working together.

|

Question 4

Looking at the topics in the syllabus, what are you most looking forward to in this course and why? Note that “the end of semester/course” is not an acceptable answer!

|
